Road Closure Notice Wood Street and Lake Street Intersection July 31st – August 7:

Gatlin Plumbing & Heating, Inc. was contracted by the Town of Griffith to install a new storm sewer on North Wood Street from just north of Lake Street south to Main Street. In order to perform this work, we will have to connect to the manhole just north of Lake Street and run south to Main Street. We have contracted Milestone Contractors North, LLP to grind the road in place tomorrow, Wednesday July 24th. They will grind out the white lined area in the street. We will start setting up dewatering on Thursday July 25th on the west side of the street. We anticipate starting pipe installation on Tuesday July 30th and running through Lake Street on Wednesday July 31st and continuing south ending just short of Main Street.

The detour route will be Main Street to the south, Miller Street to the north, Indiana Street to the west, and Elmer Street to the east. All residents will have access to their properties during construction but may be limited while working in front of their homes. We are asking residents to park their vehicles in the driveway and not on the street during the project.

If you have any questions or concerns, please feel free to contact me at 219-228-0776 or you can email me at gatlinplumbing@comcast.net.
